Rick,

When I called Faye, she said that Hilcorp is changing the locks and people who aren't staying are handing in their computers. Since it seems pretty set, I went ahead and signed the letter. I think Courtney covered it when she added "When sale and transfer are complete, permit responsibility, coverage, and liability will rest with Hilcorp"

So here is the scanned copy of the letter that I sent transferring 12 Cook Inlet GP coverages from Unocal (Chevron) to Hilcorp:
